

# Commercial Can Openers

Speed and Safety for Any Can in the Kitchen

## EaziClean® Commercial Can Openers

Patented "Quick Release" System ensures easy (Eazi) removal of the blade assembly for cleaning and replacements! Choose from models with 1" and 1 1/2" gears to tackle any chore in the kitchen with the number of turns you need!

"Quick Release" System activated by pushing handle which allows removal of blade carrier assembly. Blade is removed by hand-operated knurled screws.

Gear wheel and other components are removed by restricting gear while turning handle anti-clockwise.

- NSF Listed - a delight for inspectors!
- Patented "Quick Release" System.
- Easily pierce any size can up to 14-inches and 21-inches tall.
- Eliminate unsafe frayed metal and metal shavings that can contaminate food.
- Stainless Steel Base Plate and Steel Shaft.
- 2-Year Warranty.

# Premium™ & CanMaster™ Commercial Can Openers

Eliminate frayed metal and metal shavings with REDCO® Premium™ & CanMaster™ Can Openers. The unique blade design cuts with the forward edge while the blunt trailing edge forces the frayed metal to roll under as the blade passes over. Models can open any can up to 14-inches and boasts stainless steel shaft and break-resistant handles.

- Easily pierce any size can up to 14-inches.
- Eliminate unsafe frayed metal and metal shavings that can contaminate food.
- Stainless Steel Base Plate and Steel Shaft.
- 2-Year Warranty.
