

The first step to make a **perfect espresso:**

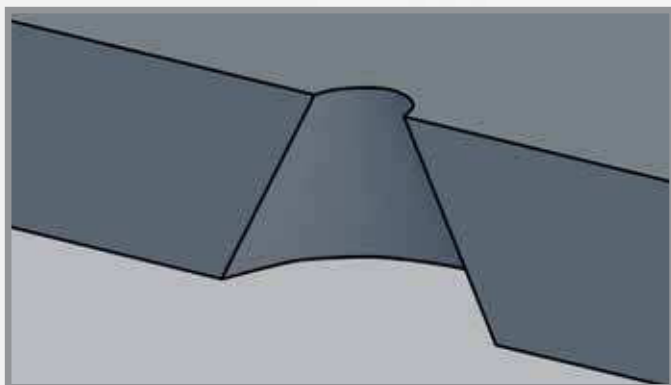

Precision showers and filters for professionals

for coffee machines by the best brands

...for those seeking the best in their performances!

Showers and filters designed to ensure the ideal extraction and to enhance the coffee aroma

Circular holes with conical cross section

- enhanced coffee out pouring due to the conical holes
- electro-polished resistant surface, assuring extended life-time

Mirror polishing

- the finish significantly reduces adherents of dirt and coffee residuals, even in the conical holes

Showers with special and innovative membrane (integrated or wired) in order to have an ideal distribution of the water on the coffee powder

- precise and evenly out-pouring to enhance coffee's quality, obtaining a velvety and delicate cream
