Mosquito Trap Series

KM-1

亨得利KM-1是以光波、温度和气流结合诱杀蚊子的小型捕蚊机。

采用飞利浦专业诱虫灯管，发出的光波经滤光片过滤，灯光柔和不耀眼。该机型风机口径90mm，风速较低，噪音较少；采用管状吸蚊槽，压缩气流吸力强但不会惊吓蚊子，捕杀效果更佳。机身内部小型变压器工作时发热，对蚊子有一定的吸引作用。

风口盖有防触电保护设计，拔出风口盖后整机断电，保护用户安全。

机壳表面采用先进的水性环保涂料，仿木纹工艺处理，无甲醛异味，适合在卧室使用。

Hendery's KM-1 is the mini mosquito killer which combines light wave, temperature, and air flow to lure and kill the mosquitoes. It uses the Philips Professional Insects Alluring Lamp Tube, which light wave go through the filter to make the light soft not dazzling. The diameter of the fan is 90mm so the fan speed is slower and the noise is less. The tubular mosquitoes absorption board can compress the air to enhance the suction without scaring the mosquitoes, which make better effects. The mini transformer inner the machine gets heat when working, which also can attract the mosquitoes in some ways. The cover of the air outlet has anti-shock design. The machine will be power off when the cover of the air outlet is pulled out, which protects the users. The machine casing uses advanced water-based eco-friendly painting, processing with wooden grain and without formaldehyde, which is suitable for bedroom.

120BQ

亨得利120BQ是具有驱蚊和捕蚊的双功能捕蚊机。

捕蚊功能与120B一样，不同的是120BQ在机身顶盖增加了驱蚊装置，通过加热驱蚊液散发气体来进行驱蚊。捕蚊功能需要提前使用，驱蚊功能能够即时驱赶蚊子，在急需摆脱蚊子烦恼的时候可以选择120BQ进行临时驱蚊。

驱蚊液在一般市场上都能够买到，只要是加热式驱蚊液基本都适用于本机。

Hendery's 120BQ is a mosquito killer that combines repellent with catching mosquitoes. The features of catching mosquitoes is same as 120B. The difference is that the 120BQ add the repellent on the top cover, which disperse the mosquitoes by heating the repellent and release the gas. The method of catching mosquitoes needs to be prepared. While the method of repellent can affect immediately. 120BQ can be chosen to disperse the mosquitoes temporarily if you should get rids of the troubles by mosquitoes urgently. Repellent liquid can be available easily in markets. Heated repellent liquid can all be applied with 120BQ usually.
